

# CAROL FREEMAN PHOTOGRAPHY

*A photographic journal of a month-long search for the mysteries of nature.*

*Wander amid woods and wetlands with photographer Carol Freeman as she captures in vibrant images the richness of life during the month that defines spring in this region. In this celebration of nature, dewdrops sparkle on blossoms, butterflies emerge from cocoons, and baby robins demand to be fed. This is nature up close and personal, with all the incredible detail and stunning colors that make spring such a joy. You will return from each "visit" to this book refreshed by the beauty and reassured that the world is a remarkable place.*

*Every Day in May is a 36 page, softcover book, 8.5x11", in glorious color!*
